BREVITIES.

The Japanese census shows only three thousand criminals in a population of over thirty-three million souls.

Female physicians are popular in London, and strange to say they are especially popular with their own sex.

Lord Egerton has paid \$25,000 for two estates containing about 650 acres in Cheshire, England.

The railroading of the United States and Canada is done by 375,000 cars and 14,932 locomotive engines.

There are six hundred volumes of printed documentary history of the United States, and not an index!

The belle of the Liliputians at Saratoga is little Maggie Jannette, of New Orleans. She is an eight year-old and very funny.

In the Bimmer-wood in Bohemia, not less than 100,000 acres of very valuable wood have been destroyed by the ravages of a boring worm.

A shrewd, and perhaps suspicious Troy barber, has invented a chair which automatically registers every person who sits in it.

A western lady has found her truant husband by a dream, but a great many truant husbands go where their wives never dream them to be.

—A black coal operator has presented a sum of \$10,000 to the children of the late Mr. Museler, who invented the safety lamp used in the coal mines in Belgium.

In Japan the law requires that when a person cuts down a tree, he shall plant one in its place. In this way the supply of wood is kept up. George Washington owns his country a tree.

—A retired socialist, who had acquired a large fortune by marriage, was asked to sit in company: "Allow me," said he, "to imitate the nightingale, which does not sing after it has made its nest."

It strikes us that with the large amount increasing circulation of our paper it would be a good investment for all who have advertising, to seek the columns of THE CONSTITUTION to make their wares known.

A Delaware father whose son had been nominated for a county office, gave him his choice between withdrawing his name or taking a d. s. de buckshot. The father said he didn't propose to be disgraced.

Recently a swimming match was arranged to take place at Eastbourne, England, between a fat man and a manif dog. But there was no race, because the dog, once in the water with the man, supposed his duty there was to save the latter's life, and persisted in his endeavors to keep the man afloat by thrusting his head under his opponent's chin.

Since the franking privilege was abolished, public documents have been increased at a rate of 10 per cent. The agricultural report, with its funny stories about bugs, beetles, and house-flies, is actually pushing the roof off the capitol, and the cry is still they come. Arrangements are being made to rent a few warehouses to store them in.

—Plucky Cary wrote of Mrs. Milton a poem entitled "Theodora."

"I am free, I am active, acting  
Is so charming, so distilling,  
Lovers think her made, I know,  
Only for a playfellow."

Conceal lips, concealing people,  
Hush! hush! two drops of cursing,  
Seem half ravishing, half slowly,  
Seem half ravishing, half holy."

—Having ascertained the weight of what I could live upon, so as to preserve health, I have written to the Rev. Sidney Smith, "and what I can live upon, I found that between the ages of ten and seventy years I had eaten and drank forty-four horse wagon loads of meat and drink more than would have preserved me in life and health!" The value of this advice is \$100,000. I consider seven thousand pounds a day. So by my voracity I must have starved to death fully a hundred persons; a frightful calculation, but irresistibly true.

The colored youth who has charge of the hat rack at Congress Hall, Saratoga, is a proxy. He has been in charge of the hat rack at the hotel for three seasons, and receives all kinds of presents from the 1200 guests while at meals, including hats, caps, canes, umbrellas, shawls, books, ladies' work, etc. He never gives a check for anything, but his memory of faces is truly wonderful, and no man is made so when a hat is called for. The close sight of hundreds of hats makes his performance of the duty all the more remarkable, and visitors often stand and look on with amazement.

Mr. Farnsworth, an American gentleman connected with the missionary society in the Levant, not long since completed a journey of 388 miles through Cesarea. His letters describe the horrors of the famine which has been and is still ravaging that country. It is estimated that at least 10,000 persons have died from starvation. Whole districts have been depopulated. Many houses have been pulled down. In the town of Yerushalayim, he found the streets crowded with starving people of the surrounding villages. Some were striving to sell for a little bread their last copper kettle, or bed, or blanket; but at Soon-gor, where there were even worse bodies of victims from starvation, in the streets for days unburied. In one village of fifty or sixty houses Mr. Farnsworth was assured that more than one hundred had already died from starvation, and in traveling a distance of twenty-five miles he found only a single inhabitant, while the sixth had only three families left out of thirty, and these districts have hitherto been fertile and prosperous.

The Courier-Journal has of late come to us with an uncertainty that is very distressing. The daily visits of our Louisville contemporaries are always useful, and we hope the cause of the irregularity will be removed.

Yesterday commissions were issued to C. W. Warren, as justice of the peace, 1,222nd district, Dade county, and Andrew Gilmer, as notary public, 1,001th district.

Lieut. James B. Hinkle, of the Suster Light Guards, resigned.

The officers of the DeKalb Dragoons were commissioned; Edward Cox, captain; Joseph Morgan, 1st lieutenant; R. M. Brown and J. C. Avery, 2d lieutenants.

YELLOW fever has appeared in Pensacola, and some uneasiness begins to be felt in the cities of Alabama. Two men died from its deadly effects in Pensacola last Saturday, and one new case appeared on Sunday. The Montgomery News urges immediate preventive action by municipal authorities.

ATLANTA. GEORGIA.

I played a double game, but somehow, in this town I don't seem to go down; my face is mown; and I'm lame.

I have a bountiful life. Letters to my friend, To keep them to the end, That my foe might bend, But that I missed.

He's grown wise, too late, Now destined to the right, And continual friends fight, Goes fishing over night,

As safe as fate,

To shirk the bitter pill— In Frank and I shall, Ben Butler, by the skin— A hopeful mind.

**ST. CECILIA ACADEMY FOR YOUNG LADIES.**

This institution stands upon an eminence, not far from the city, easily accessible, overlooking the valley of the Cumberland river.

For beauty of scenery and healthfulness it is unequalled by any institution in the South. Schools are also unknown. Chalybeate water, constant supply, is within the enclosure, and the purest White Sulphur just outside the grounds. The course of study is thorough and solid; the system of the school, in accordance with the best in the country. Relaxed, yet within easy reach of the city. It is for young ladies, all the advantages, and none of the drawbacks of the old schools. The school refers with confidence for verification of its past efficiency to its many finished graduates, and its pupils scattered throughout the South, and in the Mother Superior, St. CECILIA ACADEMY, Nashville, Tenn., sep-3d&w4

**HAVE YOU TRIED JURUBEBBA?**

ARE YOU Weak, Nervous or Debilitated?

Are you so languid that any exertion requires more of an effort than you feel capable of making?

Then try JURUBEBBA, the wonder-drug of the South, which acts so beneficially on the secretive organs as to impart vigor to all the vital forces.

It is an absolute appetizer, which stimulates for a short time, but gradually falls to a depth of misery, but it is a vegetable tonic acting directly on the liver and spleen.

It isolates the bowels, quietes the nerves, and gives such a healthy tone to the whole system as to soon make the invalid feel like a new person.

Its operation is not violent, but is characterized by gentleness; the patient experiences no sudden change, no marked results, but gradually his trouble is relieved, yet within easy reach of the city. It is for young ladies, all the advantages, and none of the drawbacks of the old schools. The school refers with confidence for verification of its past efficiency to its many finished graduates, and its pupils scattered throughout the South, and in the Mother Superior, St. CECILIA ACADEMY, Nashville, Tenn., sep-3d&w4
